Health 73**

Please answer the following as each relates to Case Management. Be thinking of how you might respond to a client like the protagonist in the film, or how you might suggest case management to assist with a chronic illness and family challenges.

1. What examples of personal challenges/troubled behavior did you see in this art?

2. What do you think was the motivation for the protagonist (lead actor)? Why did they do what they did?

3. How do you think case management could have played a role in helping manage or reduce these "problem" behaviors, or chronic illnesses, family struggles, etc, if at all?

Anything else?
