

H73 Midterm Paper

Research/Reaction

This paper should focus on Case Management and how the agency you interview, or book you read, follows what we have/are learning – or not. I expect you to discuss the pros and cons of the agency, using our text for **research** material to back up your conclusions (**reaction**). This writing would be the bulk of your paper, not including your topic paragraph and concluding paragraph, citations, and bibliography plus a title page. For more, see the syllabus for OWL or see the information gained from the class at our library. Good luck and have fun!
